Sustainable Tourism and Hospitality

Ki Maniere!

Welcome!

**1st Mauritian Open Workshop on Waste Management for the
Green Tourism Industry**
“Cooperative Partnerships of Waste Management for Mauritius”

This open workshop is a *“Cooperative Partnerships of Waste Management for Mauritius”*. Core of the workshop is targeting on waste management for Mauritius, waste reducing and waste separation—to enable recycling instead of the current practice of landfilling in Mauritius which is harming the local ecology and causing the emission of climate relevant gas emissions. The project is made to bring together stakeholders/companies from different areas of tourism and waste management.

The program reflects vast valuable contributions of the current situation according to sustainability, tourism and waste management in Mauritius. We thank all of those who present topic related issues, Air Mauritius for their invaluable support to the workshop, and all the workshop members for a truly future conference represented by a lot of main forces of Mauritius.

We hope that we can have productive conversations and round table discussions within this beautiful setting!

However, the project aims to contribute to a sustainable future of tourism and waste management. Tourists differ in their attitude towards waste production and their perceived responsibility. Additionally, stakeholders from the aviation, tourism, waste management and hotel industry are included in this integrative concept.

For improving the welfare of your country and to drive sustainable and inclusive economic growth, we have to work together as a cooperative partnership from different disciplines. Joining forces can increase flow of inform, sensitize, mobilize and educate the people. Jointly we will reach new pathways of waste management and push green tourism, for the welfare of our environment and descendants.

We thank everyone for their help and support, we particularly acknowledge the outstanding contributions of the teams at Air Mauritius (Maga Ramasamy), University of Mauritius (Prof. Dr. Robin Nunkoo) and the University of Kassel (Katharina Raab, Prof. Dr. Ralf Wagner).

Ms. Katharina Raab
(PhD Candidate)

Prof. Dr. Ralf Wagner
(Prof. for International Direct-Marketing)
