# ENVIRONMENTAL ECONOMICS: A FOCUS ON NATURAL RESOURCES

4-5 April 2024

Organized by  
**LEO - Laboratoire d'Économie d'Orléans (University of Orléans)**  
**LABEX VOLTAIRE - University of Orléans (France)**

### Keynote Speakers

Stefan Baumgärtner (Univ. of Freiburg)

Carolyn Fischer (Univ. of Ottawa)

Ilan Noy (Victoria Univ. of Wellington)

Katheline Schubert (Paris School of Economics)

## Submission of Papers

Only **full papers** may be submitted, preferably in pdf-format. Papers should be submitted to: [confenvironment2024@univ-orleans.fr](mailto:confenvironment2024@univ-orleans.fr)

**The deadline for paper submission is February 12<sup>th</sup>, 2024.**

**Special sessions proposals** need to be submitted by **February 5<sup>th</sup>, 2024**. Each proposal should include three full papers that are linked to the same topic.

Notification of acceptance will be sent to authors **February 26<sup>th</sup>, 2024**.

Please visit the website of the conference (<https://sites.google.com/view/eenr2024/home>) for full information on this event and further instructions on papers' submission / acceptance.

## Conference Objectives

The Conference will provide an opportunity for scholars interested in **Environmental and Resource Economics** to discuss their research and to exchange ideas.

Researchers are invited to submit both empirical and theoretical papers from all fields in **Environmental and Resources Economics**. For example, we will welcome papers related to the following non-exhaustive list of topics:

- Local impact of natural resources extraction
- Trade and the environment
- Natural resource curse and blessing
- Environmental regulation
- Recycling
- Circular economy
- Conflicts and natural resources
- Households' adaptation to climate change
- International environmental agreements
- Energy and renewable energy
- Environment and development
- Pollution

## Participants

The conference is open to **young and experienced researchers, Ph.D. students, post-doctoral researchers, and professionals from business, government and non-governmental institutions** involved in these research areas.

## Registration

No registration fees. Participants must cover their own travel and accommodation expenses and must register for this event by filling the google form, by **March 4<sup>th</sup>, 2024**, sent by the organizers.

## Organizing and Supporting Institutions

The Conference will take place in Orléans. It is jointly organized by:

- **LEO** (Laboratoire d'Économie d'Orléans) – University of Orléans
- **CEME** (Chair of Environmental and Mineral Economics)
- **LEO-CACL-ILB Chair** in "Energy transition and transformation of economic models"
- **LABEX Voltaire**

With the support of:

- **FAERE** (French Association of Environmental and Resources Economists)
- **INFER** (International Network For Economic Research)

**LEO** (Laboratoire d'Économie d'Orléans - Orléans Research Center in Economics) is a research unit under the joint coordination of the Universities of Orléans, Tours, and Clermont Auvergne, gathering 43 permanent members (full and associate professors) and 69 PhD students. LEO is specialized in three research areas: (1) Macroeconomics and Finance, (2) International Economics and Sustainable Development and (3) Econometrics. Two LEO chairs will support this conference:

- the Chair of Environmental and Mineral Economics (CEME) that is funded by the Agence Nationale de la Recherche (ANR) and the Bureau de recherches géologiques et minières (BRGM). This chair promotes research and teaching in the field of environmental and resource economics, within an international, globalization-oriented framework;

- the Chair in "Energy transition and transformation of economic models" that has been launched by the LEO in partnership with Crédit Agricole Centre Loire (CACL) under the aegis of the Institut Louis Bachelier (ILB). This chair contributes to the development and dissemination of recent advances in energy transition research and related economic modeling.

**Labex VOLTAIRE** is a pluridisciplinary long term research program (Investissements d'Avenir) that aims at fostering research focused on the relations between Resources, Earth and Atmosphere. VOLTAIRE (standing for VOLatils – Terre, Atmosphère et Interactions - Ressources et Environnement) gathers several research units: all the Geosciences Research Centers of the Orléans University campus, the LEO research centre, the BRGM and INRA Orléans sites. It uniquely combines the various skills and sensitivities to build a scientific community in the fields of resources (energy and minerals) and environment (hydro systems, soils, air masses). The LEO is responsible for the analysis of Economic and Social aspects related to Geosciences, within the Labex VOLTAIRE.
